SMOG DADdy

Applus⁺ Technologies

Applus Technologies Inc., a world leader in vehicle inspections introduces Smog DADdy, the new Data Acquisition Device (DAD) for the California Smog Check program. Whether wired or wireless, Smog DADdy can be purchased as a part of complete BAR OBD inspections system which includes all of the components you need to start testing day one.

Smog DADdy Complete BAR-OIS System Features:

- BAR compliant OBD interface

    + Available in wired or wireless versions

    + Built-in device and cable self-test

    + Shock, vibration and corrosion resistant

    + User friendly LED's to quickly determine device and vehicle status

    + Designed to capture expanded OBD data points as future requirements may change

    + Free lifetime firmware updates

- Windows PC with Ethernet, Wifi and Bluetooth connectivity

- Wireless package adds Bluetooth technology allowing DAD to function without cabling to the workstation

- High-resolution 22" LCD Monitor with built-in speakers

- Conventional 89-Key Windows Keyboard

- Field-proven Okidata B411d laser printer

- Honeywell Industrial grade barcode scanner

- Best-in-industry workstation with solid cast aluminum base

- 24 month warranty on all major components, 90 day warranty on cables, consumables excluded

- Affordable month payment plan available

Smog DADdy Complete BAR-OIS System Advantages:

- Smog DADdy wireless version eliminates cables in the inspection area

- LED indicators show power, OBD and PC communications status, vehicle voltage and fault conditions

- Fast data communication rates so you can test more vehicles in less time

- Comprehensive circuit protection maximizes Smog DADdy reliability

- Extreme durability for challenging garage shop environments

- All components exceed Applus+ standards for inspection environment reliability

- Proprietary data backup & restore features which maximize uptime

- Fast service & support with remote diagnostic access capability

Applus reserves the right to substitute displayed components with products of similar functionality depending on availability, function, and compatibility with SmogDADdy.

*Windows 8 and 8.1 support will be provided once approved by BAR. Windows 8.x RT is not supported
